

# THE LAS VEGAS MASS SHOOTING

and

## RESULTANT LEADERSHIP PUSH FOR GUN CONTROL

by michael-herbert: keehn - October 10, 2017

The mass shooting and resultant murders in Las Vegas on October 1, 2017 certainly appears to have the earmarks of a *Leadership Engineered Event!* Agencies controlled by the same Leadership are knocking themselves out to prove it was a *single shooter*, the same as when President John F. Kennedy was assassinated. Born in 1946, I am old enough to remember and have experienced this non-sense at the time it occurred, and numerous times since.

The LIES of Leadership, set forth to manipulate the American People, need to be remembered. President Franklin Roosevelt had implemented an 8-point plan to put the Japanese in a corner and make certain they would either have to attack the United States or become U.S. slaves. To their credit, they chose not to be slaves. But that's not the story. The rest of the story is that Washington, District of Columbia code breakers had broken the Japanese Military and Diplomatic codes, and knew when and where the Japanese were poised to strike. However, Washington Leadership (President Franklin Roosevelt) chose not to inform the Pacific Command so that they could prepare. What the American people did not know, was that this Leadership wanted to be in World War II, but needed a catalyst to sway the American people to support entry into World War II. And that catalyst would be a Japanese attack on Pearl Harbor, which occurred on December 7, 1941. Just knowing this is enough to put Leadership right in the center of the events of September 11, 2001. But it doesn't stop there.

For those not aware, the decision to drop the Atomic Bombs on Japan resulted in a meeting in which it was decided by Leadership that the Atomic Bombs needed to be tested on a live population. Japan was already beaten and was privately suing for peace. But that didn't make any difference, U.S. Leadership

wanted to test the bombs on a live population, and that was the decision. For the reader to confirm this claim, please see:

## THE SECRET HISTORY OF THE ATOMIC BOMB

### WHY HIROSHIMA WAS DESTROYED

Under the heading of "A UNITED NATIONS PROJECT".

by Eustace C. Mullins June 1998

Therefore, for the sneak attack on Pearl Harbor that we knew about ahead of time, and in which Leadership allowed roughly 2,400 American's to die by withholding information, over two-hundred-thousand Japanese would die, many of them innocent women and children, vaporized where they stood or sat in the classroom. And this is the caliber of people who want your guns.

Now let's move on to Vietnam. President John F. Kennedy had been assassinated, allegedly by lone gunman Lee Harvey Oswald, removing the impediment that Kennedy represented to the escalation of the Vietnam War. But before we go on, let's take a quick look at the Kennedy assassination. Oswald, who was a former marine, buys an Italian "Mannlicher – Carcano" rifle out of a sporting magazine advertisement. This rifle is an internationally known **hunk of junk**. Right above the Mannlicher is an M1-Garand rifle with which Oswald trained in the Marines, one of the finest rifles of the time. Now, assassinating President Kennedy is arguably the most important job Oswald will take on in his life, and he picks an internationally known **hunk of junk** to do this job instead of the M1 - Garand???? Well, Leadership believes that the American people are stupid enough to believe this is what a serious assassin would do.

And so President Kennedy is assassinated, allegedly shot by a **bolt-action** Mannlicher – Carcano rifle in a volley of three shots. Now, the point to take note of here is that Oswald was able to get off three world class shots at a moving target with this bolt-action rifle that no FBI sharp-shooter was ever able to match, with a **right-hand-bolt-action rifle and Oswald is left handed.** And Leadership again thinks that the American people are stupid enough to believe this.

And then people subservient to Leadership come up with the Magic-Bullet Theory, in which a bullet magically turns around in mid-air, shatters bone, and is in pristine condition when found on the gurney at the hospital. It's like the finding of the pristine-passport of one of the nine-eleven hijackers on the street in New York. How it survived the fireball of the crashing airliner is **a miracle to behold**, or so that is what Leadership thinks the stupid American people will believe. The best description of the magic-bullet theory I've heard was presented in Oliver Stone's movie, JFK.

OH, and let us not forget the report of the Warren Commission, who investigated the assassination of President Kennedy. The Commission's report was sealed from examination by the People of the United States for seventy-five years, making certain we witnesses will all be dead and incapable of disputing that report. That certainly gives the American people a warm trusting feeling.

Moving back to the Vietnam War. Again, Leadership needed a catalyzing event to justify escalating the War in Vietnam. That event became known as the **Gulf of Tonkin incident**. This can be a little confusing because there were two alleged Gulf of Tonkin incidents. The first one actually occurred. In the first event, North Vietnam was being attacked by the South Vietnam Navy and Laotian Air Force. And a U.S. War ship was in North Vietnamese waters engaged in aggressive intelligence gathering. As such, North Vietnam Gunboats LEGALLY ATTACKED the U.S. War Ship. Well, that was the first instance. But that was not the instance used to justify escalating the Vietnam War because it was a legal attack. It was the **FALSE CLAIM** by U.S. Leadership that an unwarranted second attack on an American War Ship took place while the ship was in international waters. In short, **it was a Leadership LIE!**

But it was used to pass the Gulf of Tonkin Resolution that escalated the Vietnam War which ultimately took the lives of 2-Million Vietnamese, 1-million Laotians, 1-million Cambodians, and 56,000 Americans. That war lasted from November 1, 1955 to the fall of Saigon on April 30, 1975. And cost the American people untold debt to which they are still obligated to pay. And the genetic code of many Vietnamese was altered due to the millions of gallons of

horrendous chemicals we sprayed in that country, [producing many birth defects](#) and they are still suffering from that.

We now move on to the bombing of the Federal Building in Oklahoma City. In this event, we were fortunate enough to have retired General Benton K. Partin analyze this event ([Analysis](#)). General Partin was a Chemical Engineer whose military career involved the destruction of *hardened*

*targets*. Thus he is familiar with the signatures and capabilities of explosives. Should you visit his Analysis linked above, you will find that he clearly states that the Truck Bomb was not sufficient to do the damage which occurred. He points out in the photographic evidence, that support columns were cut with explosive charges designed for that purpose. This required *inside the building access*. Thus, this event was also a Leadership Engineered Event to manipulate the minds of the American people. In short, one-hundred-sixty-eight of our fellow Americans died in this effort to manipulate our minds.

We move from the bombing of the Federal Building in Oklahoma City to the events of September 11, 2001, in which three Airplanes allegedly knocked down four buildings. We are told, by Leadership, that burning jet fuel was responsible for the destruction of the twin towers. And that is absolutely

impossible. The jet fuel does not burn hot enough to topple the steel beams on which the tower was supported, yet the beams were down in the rubble. That means it was an inside job. And World Trade Center *Building Seven* was not even damaged by a plane, but it mysteriously fell in its own foot print, all forty-seven stories of it. In short, it suffered demolition the same as the Twin Towers, which also fell in their own footprint. But Leadership didn't admit to controlled demolition. And while a plane of some type hit the Pentagon, it was not an airliner. There were no Jet Engines, no Landing Gear, no seats, no shoes, not anything that would suggest an Airliner had crashed there, and these items don't evaporate in a crash. The evidence against the official story of Leadership is overwhelming. People investigating this event have truly done an excellent job.

Using the LIE of nine-eleven, Leadership began beating the drums of WAR against Iraq in 2003. In this case, both the United Kingdom Leadership and the Leadership of the United States claimed that Iraq possessed WEAPONS OF MASS DESTRUCTION. And, of course, the Mainstream Misleadia was in lockstep with the Drumbeat of Leadership. In this event, which Leadership knew was a LIE, numerous honorable people stepped up to the plate in an attempt to point out that the Mainstream Misleadia was LYING, AGAIN, and these brave investigators tried to inform the American people. Well, this time some of the American people were listening, and they got more American's to listen. Eventually, virtually everyone who had a brain knew **this Leadership claim of Weapons of Mass Destruction was not true.** [Defector admits to WMD lies that triggered Iraq war.](#)

Yet, by the time the American people were appropriately informed, hundreds of thousands of innocent Iraqi's had been murdered by guns and other weapons of the United States. In some cases, murdered for trying to defend themselves against a ruthless aggressor. Now it appears that the Iraqi death toll is over a million people. All so that wall street and the bankers can steal their natural resource... OIL! No one is safe that has a resource that the United States Leadership wants. In this [video](#), no one was armed, what the helicopter crewman saw was camera straps over the shoulder of the newsmen. I think this is the video that Bradley Manning went to prison for releasing to

Wikileaks.

From here we move on to December 14, 2012 and the alleged shooting of teachers and students at the Sandy Hook Elementary School in Newtown, Connecticut. This was billed as a full-blown attack by both Leadership and the Mainstream Misleadia. And the Misleadia did their best to mislead the American people into believing a staged event that was not true. Once again, primarily due to independent American's investigating, this event was proved to be yet another Leadership hoax that was being **used to take away your unalienable right to own weapons** (guns).

Now we move on to the bombing that took place during the Boston Marathon. It was a Leadership orchestrated event, with blood, and gore everywhere. One photo of renown is allegedly of an injured man in a wheelchair with the lower portion of his left leg blown off by the bomb. A man in a cowboy hat is beside him, ostensibly pinching off a blood

vein. And it was all a HOAX, engineered by Leadership to frighten the American people. **Well, the American people should be frightened, they have PSYCHOPATHS in Leadership positions who are trying to disarm them.** Read about the Boston Marathon bombing hoax here >>> [Also a hoax](#) .

And at long last, we have Syria. A war prosecuted by the United States since 2012. As matters now stand, between 331,765 and 475,000 Syrian's have lost their lives in this war in which the United States Leadership wants to replace the Syrian President, Bashar al-Assad with a puppet that will do as United States Leadership wants. It is just in the past 8 months or so, that Russia, invited in by the Syrian Leader, has provided enough support to stem the advances of the opposition. During this conflict, it has been established that United States Leadership was financing and supplying the TERRORISTS!

It is as though the United States Leadership has reached a point where they don't seem to care if the people of the United States know they are criminals. THE PEOPLE BE DAMNED seems to be their motto.

And so, may we ask, ***what is the purpose of Governments?*** According to the Declaration of Independence the people have certain unalienable rights and that the purpose of Government is “to secure these rights”, not find reasons to take them away! Here is the full text of that section.

“We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty and the pursuit of happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed...” – Declaration of Independence

Now, some are going to say that the Declaration of Independence was written when we were, technically, still under English rule so it does not have *standing at law*. And they would be wrong. We said it, and then we picked up **OUR GUNS** and made it stick. Therefore, ***it gained standing under a test of arms! And the rights that came from War with England, including the right to bear arms (the Second Amendment to the Constution) was purchased with many AMERICAN LIVES!***

Right now, there is a power struggle between President Donald Trump and the invisible Leadership we now call the Deep State, which, in my view, is primarily the Banking Elite to whom the National Debt is owed. And it is the National Debt that the Banking Elite use to control the *visible* Leadership we elect, with the current exception of President Donald Trump and certain members of his team. Therefore, references to *Leadership* do not apply to Trump at this time. Therefore...

If the invisible Leadership that has been controlling the United States for the last 40-years has proved anything to us, it is that they cannot protect us on our own soil, which means that visible Leadership is also blocked from being

able to protect us. They both have proved that they are behind many of the events discussed herein. Leadership has proved, several times now, that they have no ability to even protect our right of free speech. Leadership has proved that they are literally willing to sacrifice millions of foreign lives and thousands of American lives to get what they want. The key to being an American Leader or an American Leader minion<sup>1</sup>, is to have no morality at all. Those with a sense of morality are often whistleblowers and Leadership does its best to put them in prison. We can see, or should be able to see, that there is virtually no limit to how far Leadership will go to take the guns from the hands of the American people, while they remain the single most dangerous element the American people have to face.

When there is mass murder committed with an automobile or a truck, do you hear Leadership calling for the banning of automobiles and trucks? NO? Why NOT? It's because automobiles and trucks do not pose a threat to their total domination of you and your family. It's very simple, it doesn't take a rocket scientist to figure it out. The men who died in World War II, or the Vietnam War, or the Gulf War, all thought they were protecting our RIGHTS and FREEDOMS, such as Gun Ownership. United States Leadership has been complicit in murdering Americans since at least Pearl Harbor by un-necessarily putting Americans in harms way.

Leadership: The people who have consistently LIED!

We should probably keep in mind that when the Second Amendment to the Constitution was passed, there were people of the United States being murdered with guns. Yet, it was thought that the need to be able to protect ourselves, either from common criminals or from criminals on high who call themselves Leaders, was absolutely necessary and outweighed the concern of occasional murder with a gun.

The choice being SLAVERY vs. FREEDOM.
