We have learned that the UNITED STATES flag began flying above the State flags after the passage of the Banking Relief Act. This is evidence the Union States have been occupied by the UNITED STATES [corporate], under *war and emergency powers*. This altered our entire system of laws and their application. Is our current leadership aware that we have been operating under *war and emergency powers*?

In 1973 Senate Hearings were conducted on the termination of the *National Emergency* under which the Banking Relief Act was passed. At that time, the “*emergency*” had been kept alive for 40 years, it is now 2011 and the *emergency*, along with the powers it provides, has now been kept alive seventy-eight years. In a previous column I made note that once the Banking Relief Act was in place, leadership passed layer upon layer of law, all pursuant to, and deriving its authority from the Banking Relief Act. From page one of the book on the *Hearings on the Termination of the National Emergency*, available from the government printing office, we read:

“These more than 580 Code sections [pursuant to the authority granted by the Banking Relief Act] delegate to the President a vast range of powers, which taken all together, confer the power to rule this country without reference to normal constitutional processes.”

“Without reference to normal constitutional processes” that so many American’s died to provide. And that, right there... the power to rule the country without constitutional limitations, is the reason the *emergency* has never been terminated. If the *Emergency* were terminated, the Banking Relief Act would become inoperative, and we would return to *Lawful Civil Authority*. The Language providing this extraordinary power reads as follows:

“The actions, regulations, rules, license, orders or proclamations heretofore or hereafter taken, promulgate, made or issued by the President of the United States or the Secretary of the Treasury since March 4, 1933 pursuant to the authority of section '95a' of this title, are hereby approved and confirmed.” – Chapter 1, Title 1, 48 Statute 1, March 9, 1933 (straight from the Banking Relief Act).

There it is, any executive order issued by the President is already confirmed, without ever knowing what they might be. The same for the *Secretary of Treasury*. Those alert readers may have noticed that the President is identified as the President of the United States, but the Secretary is NOT identified as the Secretary of Treasury of the United States, because he is not. This is a reference to the Secretary of Treasury of Puerto Rico, acting as *receiver* in the bankruptcy of the United States for the benefit of the creditor of the United States. Ownership of our country has been transferred from our hands into the hands of an investor (creditor), and the president has been made a dictator, do we care?

Since the people have never risen up to object or contest this language or action, it is assumed by the courts, congress, and the military that this is what the people want, ***economic enslavement and rule by dictatorship***. What is completely ignored is the fact that it has been accomplished under deception. The deception worked because none of the institutions we entrust with our lives made us aware of the true nature of this act. Since March 9, 1933 it has only been necessary to convert all of our normal and regular activities into a commercial activity in order to take control of our lives in every respect, convert all of our relationships into a commercial activity, including relationships with our wives and children, and accept the role of economic slave for ourselves and our children.

Consequently, more and more of our productivity (which is what has real value) will be taken from us through income taxes and other levies, to service the ever increasing national debt, made larger every year by the national leadership we elect to represent the interests of the creditor of the UNITED STATES [corporate]. A great deception is it not?

I suspect the current goal is to reduce our economy to that of a third world nation so that a new currency can be introduced, which will establish a new sovereign authority, whereby the borders of the UNITED STATES as well as other countries will dissolve. Which is already being accomplished to some degree by NAFTA (North American Free Trade Agreement) and GATT (General Agreement on Tariffs and Trade), enacted by our leadership for the benefit of the creditor of the UNITED STATES. Normal investors like you and I lost fifty-percent of our investments in 2008. Do we think it's possible that the bailout, which saddled us with more debt, was used to make certain the elite investors didn't lose any money?

And make no mistake about it, our creditor wants control of the entire world, not just the UNITED STATES. Currently, the UNITED STATES is the one big stumbling block to global domination. And this is why we are psychologically profiled to go around killing other people in this world. Revisiting what J. Edgar Hoover said:

“The individual is handicapped by coming face-to-face with a conspiracy so monstrous he cannot believe it exists. The American mind simply has not come to a realization of the evil which has been introduced into our midst. It rejects even the assumption that human creatures could espouse a philosophy which must ultimately destroy all that is good and decent.” - J. Edgar Hoover, Director of the FBI from 1924 to 1972.

So, are we beginning to get it? Are we beginning to comprehend how much we have been deceived? I'm not only asking the general public, but also those we entrust with our lives, schools, churches, mainstream media, and especially local leadership, but State and Federal leadership as well. After all, it is the fiduciary obligation of leadership to protect and defend the constitution from all enemies, both foreign *and domestic*.

More deception to come, so stay tuned.
