

# The CORE Problem

## Part 5 of 8 parts

As seen through the eyes of  
Michael H. Keehn

# VIEW IN ORDER

- The file names of the *Presentations* in this series contain a two digit number, 01 through 08. Use this number to view the *Presentations* in order. It is necessary to view the *Presentations* in order so that the information flows logically and is not disconnected gibberish.

# Disclaimer

- The information contained in this series of presentations is neither intended to deceive nor mislead. The information presented is true and factual to the best of my knowledge. Opinions are mine. The viewer is responsible for confirming anything upon which he has doubt. Nothing in these presentations is to be construed as legal advice.

# Distribution

- This information is distributed either on a compact disk or as a ZIP file. In either case, the individual is welcome to distribute copies to anyone so long as the information is not altered and all files are included... Michael H. Keehn

# References

- *American's* is a reference to the people of these united States of America.
- *The District* is a reference to “the United States” (corporate), Washington, District of Columbia.
- *These united States of America* is a reference to the Union States, united by, and under, the Constitution, what we know as the Republic of these united States of America.

# The CORE Problem

- Simply put, it's the *national debt*. Some American's think that we owe this debt to ourselves. We do not! It is owed to a cartel of private individuals through the banks they own. The Federal Reserve Bank is central to this issue here in the United States, and in a global sense, the International Monetary Fund (IMF) is included. By now, this should be evident.

# Recapping

- First, we will recap the path we have traveled, and beginning in the next *presentation* in this series, take a look at the effects of our actions and behaviors.

# The Path

- 1776 – Revolutionary war which left us in debt and shopping for a creditor to pay all the other creditors and willing to give us time to repay.
- 1791 – England becomes our creditor and we charter the First National Bank of America to hold the collateral for the loan from England. Bank is 80% English owned and 20% American. In a short time, it becomes 100% English owned.

# 1811 - 1812

- 1811 – The Bank's Charter expires and congress does not renew the charter.
- War of 1812 – in which the English invade, burn down the White House and President's personal house, enter the Federal Courts and recover titles to the property used as collateral for the loan (all the property owned by the Federal Government).

# Debt Free, First and Only Time

- 1815 – Second Bank of the United States is chartered. War of 1812 ends, English go home happy.
  - 1832 – President Andrew Jackson veto's a bill to re-charter the Second Bank of the United States (a Rothschild controlled bank) and using threat of Federal Troops, encourages the Union States to collect tariffs which he uses to pay off the national debt. The United States was out of debt and free of the Banksters for the first and only time.
- 

# The Beginnings of Criminal Behavior

- 1861 – Southern delegates walk out of Congress. Congress adjourns without setting a date to reconvene. Lincoln illegally declares war, then, without authority (illegally) issues the first executive order, then, illegally declares Marshall Law, using said Marshal Law to force northern congressional delegates back into session under the bayonet, a status under which Congress sits to this day.

# Emancipation Proclamation

- 1863 – Lincoln issues the Emancipation Proclamation to free slaves, but only targets Southern States where Lincoln had no legal authority, and did not target Northern States where Lincoln did have authority. Therefore, Lincoln was not interested in freedom for the slave, just inciting the southern slaves to revolt, providing support in the war against the South.

# Greenback

- 1862 – Lincoln issues the “greenback” currency which deprived the Banksters from loaning the United States money and charging interest, over 20%, on that loan.
- <http://www.xat.org/xat/usury.html>

# Civil War Ends

- 1865 – Civil war ends. Lincoln is assassinated before he terminates the Marshal Law he declared. The Marshal Law Lincoln instituted now becomes a tool of the Banksters in their control over elected officials.

# 14<sup>th</sup> Amendment

- 1868 – Passage of the Fourteen Amendment to the Constitution provides a lower class of citizenship to the freed slave than was held by white Citizens of these united States of America. In effect, the 14<sup>th</sup> Amendment created a new class of citizenship (United States citizen), which is citizenship in the District of Columbia, a jurisdiction outside the republic.

# Criminal Behavior

<http://www.truthsetsusfree.com/14thAmendment.pdf>

- A constitutional Amendment must be proposed by two-thirds of both the House and Senate. In order to get the necessary two-thirds needed for the 14<sup>th</sup> Amendment, all southern delegates and one senator from New Jersey were excluded from voting, making the 14<sup>th</sup> Amendment an illegal (criminal) act and technically inoperative. The result of a Congress setting under the bayonet. But it does serve the interest of the U. S. creditor.

# Collecting the Collateral

- 1871 – The United States defaults and fails to pay the due debt. England, the U.S. Creditor, collects its collateral, all the property owned by the Federal Government, including Washington, District of Columbia. [Continued]

# The Corporate United States

- 1871 – England, as the sovereign of Washington D. C., forces incorporation upon *the District* [of Columbia], and the name of the newly created, British owned corporation is “The UNITED STATES”. Not to be confused with *these united States of America* [republic of]. They are completely separate from each other.

# 1933

- 1933 – The Banking Relief Act of March 9, 1933 is passed, making the President and Secretary of Treasury a dictator by giving approval to any executive order they may issue hereafter, authorized the confiscation of our gold, authorized the issuance of a currency created by deposit of debt, and identified the citizens of the United States as an enemy of the United States.

# Looking at the Effect

- In the rest of this presentation series we will be examining the effect of our unwillingness to elect leadership to pay the debt, leading to our own dishonor. In the end analysis, it is “we the people” who are responsible since we have all the tools necessary to correct our problem. We have the tools whether we have recognized them, or whether we refuse to recognize them, and we will look at this in greater detail later. And this makes us responsible for our situation.

# Corporations gain person status

- Of the 150 cases involving the Fourteenth Amendment heard by the Supreme Court up to the Plessy v. Ferguson case in 1896, 15 involved blacks and 135 involved business entities. The 14<sup>th</sup> Amendment was used to give corporations person status in court.

# END OF SEGMENT

- This ends this segment, we'll examine ourselves and the consequences of the path we have chosen in the next segment. Right now it's time for discussion and exchange of views.
