

Minuteman Defined

I chose *Minuteman* as the name of my web site because of the history of the American Minuteman. To me, the *Minuteman* embraces the true patriotic spirit. Ready in a moments notice to do what is necessary to defend freedom and liberty.

But one day I received an e-mail from a person with an Arabian name, asking me to 'define today's Minuteman in my own words.' I suspected that this was probably an agent of one of our many government agencies on a fishing trip for the next 'David Koresh', but I treated the query as though it were legitimate. The definition I provided this individual follows:

* * * * *

Today's Minuteman

Minuteman. An American who recognizes the sacrifices of the men, women and families of the 1770's, what their efforts and sacrifices provided for themselves and those who follow, and like the *Minutemen* of another time is ready to defend those freedoms, laws and government structures for which many Americans of the 1770's through the 1780's died to secure.

He is a man that is able to see that certain actions by government, such as that which occurred at Waco, Texas, is government sanctioned murder. He understands that any power or authority that the government claims to have and exercises is a power or authority that has been conferred upon that government by we the people. He further understands that we the people can not confer an power or authority that we do not possess.

For an example I site the case of a young mother who was standing in the door way of her cabin. As she stood there she was unarmed and had harmed no one. She posed a threat to nobody. The only thing she was holding was her 10 month old baby. Since I lack the lawful authority to target this lady with a snipers rifle and shoot her in the face, I can not confer that power or authority on government. No American could confer that power or authority. And since none of '*we the people*' could have conferred that upon government, when government agent Lon Horiuchi pulled the trigger on his snipers rifle, he committed murder, in my name and in yours. The bullet, that we paid for, tore off her lower jaw and severed her carotid artery. She fell to the floor of her home with her infant still in her arms, the baby bathed in her mothers blood. The scream of this young mother lasted for about 15 seconds before she was gone. A *Minuteman* of today recognizes this as murder, committed by government in his name and he is willing to do whatever he can to end it and to bring those responsible to justice.

A *Minuteman* of today understands that the government of today is not operating under lawful civil authority but is instead operating under *war and emergency powers authority* (48 Statute 1, section 95) and under certain bankruptcy statutes [5 USCA 903, etc.] to defraud the American people out of their heritage and country and transfer the same to the international bankers who

engineered the bankruptcy of the Federal Government. The *Minuteman* of today understands his responsibility to do that which he can to end this fraud against his country and his fellow American.

Today's *Minuteman* understands the economic slavery that has been created through the use of private commercial paper (Federal Reserve Notes). From the **Banking Relief Act of March 9, 1933**, Title 4, we read the language which authorizes the Federal Reserve Notes:

“Upon the deposit with the Treasurer of the United States; (a) any direct obligation of the United States; (b) any notes, drafts, bills of exchange or bankers acceptances acquired under the provisions of this act, that any Federal Reserve Bank making such deposits in the manner prescribed by the Secretary of the Treasury, shall be entitled to receive from the Comptroller of the Currency, circulating notes in blank, duly registered and countersigned.”

- (a) the public debt or
- (b) the private debt

In the case of private debt and in simple form you buy a piece of Real Estate for \$100,000 and put \$20,000 down, then sign a contract for \$80,000. When this contract (private debt) is placed on deposit with the Treasurer of the United States, the Federal Reserve agent is then authorized to issue an amount of currency (Federal Reserve Bank Notes) formulated from the \$80,000 contractual debt. In four years you have landscaped, poured a concrete driveway and patio, and installed a couple larger windows. You then sell this property for \$130,000. The buyer puts \$30,000 down and signs a contract for \$100,000. When this contract is placed on deposit with the Treasurer of the United States, the Federal Reserve is again authorized to issue an additional amount of currency on this new debt, retiring the currency from the previous contractual (debt) on the same piece of property. Over and over again this occurs, providing explanation why it is so easy to get credit? Credit creates DEBT. As a result, our Federal Government was easily brought to bankruptcy. See bankruptcy statutes 5 USCA 903, etc., to confirm the bankruptcy of the Federal Government.

Our *Minuteman* of today clearly sees that the Federal Reserve Note is issued upon the acquisition of debt and since the Federal Reserve Bank (the source of the currency) is privately owned he understands that there is a usury charge for using this currency that is called interest. It is this interest that has brought the Corporate Federal Government into receivership. Our *Minuteman* understands that the fairy tale that *we just owe it to ourselves* is a false and fabricated lie by those who wish control while avoiding responsibility.

He can see that the trap works approximately as follows: The Federal Reserve Bank loans the Federal Government currency (not lawful money) which initially provides a seemingly endless source of funds to the government. Debt begins to accrue and when it is sufficient the bankers call in their loans. The result...

“Under the new law the money is issued to the banks in return for Government obligations, bills of exchange, drafts, notes, trade acceptances, and banker’s acceptances. The money will be worth 100 cents on the dollar, because it is backed by the credit of the Nation. It will represent a mortgage on all the homes and other property of all the people in the Nation. - [Congressional record; Congressman Patman speaking]

Without authority and without full understanding of the American people, congress entered into an agreement that placed a mortgage on all the homes and other property of all the people in the Nation.

And so the Minuteman sees that Americans, himself and his children included, can never truly own anything and that his productivity, as well as the productivity of his children and grandchildren have been mortgaged to the world bankers, though the collection of *income tax*, by the very Congress that was set up to protect him, his family and his country. It is an economic trap, from which there is no escape, created through fraud and trickery upon the American people that enslaves them in ways that they do not understand because their education has been taken over by the same government.

My words could go on for a considerable distance further, but this is enough for now. A Minuteman is the friend of freedom and justice, and he is the arch foe of tyranny, injustice, deception, fraud, trickery and enslavement.

I notice that you did not identify yourself in your e-mailing and that of course, leads to suspicion on my part as to whom you really may be. It is my hope that your query is honest and that you are not some agent of the government on a fishing trip.

Sincerely... Mike

* * * * *

Well, that concludes my response to the gentleman with the Arab sounding name. I never heard another thing from him so I suspect that my assessment was probably correct. If you would like to comment, feel free to send me an e-mail at mhkeehn@gmail.com, using the subject *minuteman*. I get so much junk mail that if you fail to use an appropriate subject, it probably will not get read.
